# OUR BRAND VALUES

Urban Legend, a brand by  
**CasaMia Interior Ltd.**

Born from the will to create accessible Designs that do not compromise innovation, quality and style, "Urban Legend" is a freedom brand first and foremost. We create what we like. We believe the best way to keep our innovative and creative spirit alive every day is to love what we do, and to do it with purpose. We constantly re-invent ourselves. Our Designs cannot be classified under one particular style, but rather incorporate different languages to create unique statements. Our Design vision is very focused on what we call our "emotional intelligence", or our capacity to be moved by a simple detail, a shape or a texture.

Our style is minimalist yet sophisticated, warm and authentic yet resolutely contemporary, innovative and sometimes conservative. These contradictions, we do not fight them, but we integrate them fully into our work, and they define the very unique "Urban Legend" signature, between Artisan well kept knowhow and "modern lifestyles".

*"There is an invisible, subconscious feeling that connects us to the things we love. It is this very intimate and ethereal emotion that we strive to ignite through our products"*

D.Jamet  
Head of Design

# OUR PRODUCTS

Our furniture is manufactured in Vietnam, by "workshop-sized" factories that are both highly skilled and cost-efficient. We put a high priority to work with people who take pride in what they do, and always aim at achieving higher goals with us!

100% of the wood we use in production is imported and comes from sustainable forests. Our Oak and Walnut are FSC hardwoods, from US logs in the highest grade. Our stone tops come from Grece and Italy, our Porcelain tops are from Spain, and our Leather is 100% Italian.

We bring together the best materials and know-how of producers all around the World to create furniture and objects that ignite a deep, ethereal emotion in the owner of a chair, a bed or a lamp from Urban Legend. Objects that last, and that he will want to cherish.

Our products will never be completely sustainable, as some of our materials won't, but as a furniture manufacturer and Designer the best way we can contribute to a healthier environment is to inspire a sense of respect for the things you own, simply by loving it.
